

Mayor Larry Lavagnino,
Santa Maria City Hall, 2006

As a longtime public servant and community leader, Mayor Larry Lavagnino is one of the Central Coast's most notable luminaries. When he experienced symptoms of a heart condition, he immediately called on the experts at Marian's Cardiac Care Center, which for three years **has ranked among the top 10 percent of health facilities nationwide in all cardiac care measures of quality.**

When Mayor Lavagnino needed a quintuple bypass to continue serving his community, he chose one of the nation's top cardiac programs—right in his own hometown.

Inspired healthcare.
Then. Now. Always.
